

ZixCorp Delivers Powerful New Solution with Global IT Leader

New ZixGateway with Cisco Technology Introduces Option for Security Conscious Enterprise Customers

DALLAS — Oct. 13, 2015 — [Zix Corporation](#) (ZixCorp), (Nasdaq: ZIXI) today announced the launch of [ZixGateway® with Cisco® Technology](#) (ZCT), an on-site solution for easy-to-use encrypted email to anyone, anywhere on any device. Available on October 23, 2015, through Cisco direct sales and its reseller network, ZCT addresses a need for enterprises that require on-premises, industry-leading security by integrating Zix® Email Encryption with Cisco Post X Envelope.

“The integration of Zix Email Encryption with Cisco technology, as well as sales and marketing preparation for the new product, has been exceptional,” said [Rick Spurr](#), chief executive officer of ZixCorp. “We are excited to present ZixGateway with Cisco Technology to the market and enhance security and ease of use for our customers.”

ZCT will enable customers to meet regulatory and corporate compliance requirements for email communication without the need or cost of special training or procedures for employees. ZCT customers will benefit from the industry’s most robust and easy-to-use delivery methods, including ZixCorp’s unrivaled transparent delivery of encrypted email. With transparent delivery, both senders and recipients using ZixGateway skip the hassle of extra steps and exchange secure email just like regular email. Adoption of this solution in the marketplace will increase the size and value of the Zix Encryption Network, benefiting all new customers as well as existing ZixGateway customers who will experience transparent delivery of encrypted email with more of their recipients.

“Our OEM relationship showcases a new trend in security where industry leaders combine their valuable and proven solutions for the advancement of technology and data protection,” said Spurr. “Together, we can best serve our customers, meet their evolving needs and tackle today’s greatest security challenges.”
